

Quick guide for your radio

Radio operations:

1. Turn on radio and turn up volume (3), radio will verbally say channel mode. If it says frequency mode push (8).
2. Verify display screen is on (4) and on OHCC (primary channel 1), if not press up or down arrow on (14) to channel 1
3. To transmit make sure no one is talking. Press PTT (7) and give your call sign and name to front of radio about 6" away.
4. State your message, say OVER for a reply or OUT to end the message and stop pressing PTT.
5. When through with the radio turn it off (3) and place it in the charger. Make sure the RED charge light comes on. If the light is AMBER, it is not in the charger correctly. Once the GREEN light turns on take the radio out of the charger and it will be ready for the next radio use.
