

## SERT Communications with the Oceanside Emergence Operations Center (EOC)

(Updated: 8-26-2020)

In the event of an emergence the city of Oceanside activates the Emergence Operations Center (EOC) located at the Oceanside Civic Center Transportation office with all their monitors. This is headed up by the city manager and includes police, fire, planning, operations, utilities, road/transit, Oceanside ham CERT and even Camp Pendleton. In case of an event we have a say so directly with the EOC. This is done by the Oceanside CERT hams activating a net on the Oceanside repeater 144.505 frequency (backup 145.540). Net Control would be similar to our Ocean Hills activating an IRT. Any of the Oceanside CERT hams can check-in to Net Control and report traffic from SERT IRT.

### THE OHCC SERT HAM COMMUNICATION TO OCEANSIDE CERT NET CONTROL

WHO to speak	WHEN to speak	WHAT to say
Ham radio operator	Initial incident activation	Set radio to the Oceanside CERT repeater (145.05).
Ham radio operator	When the channel is clear	Make a call out to the Oceanside CERT Net Control with your call sign. Wait for Net Control to respond to your call. State you have traffic from Ocean Hills Country Club SERT IRT

WHO to speak	WHEN to speak	WHAT to say
Oceanside CERT Net Control	Respond back	Ask for traffic on Ocean Hills Country Club SERT IRT
Ham radio operator	When the channel is clear	This is (ham operator call-sign) give status from information provided by the IRT.
Oceanside CERT Net Control	Respond back	Restate back the traffic provided

Ham radio operator	When channel is clear	Confirming traffic is correct
Ham radio operator	Listen for updates	Monitor the frequency for communications between Net Control and other ham operators to relay status to IRT of other Oceanside communities.
<b>WHO to speak</b>	<b>WHEN to speak</b>	<b>WHAT to say</b>
Ham radio operator	When the channel is clear	Make a call out to the Oceanside CERT Net Control with your call sign. Wait for Net Control to respond to your call. State you have updated traffic from Ocean Hills Country Club SERT IRT
Oceanside CERT Net Control	Respond back	Ask for updated traffic on Ocean Hills Country Club SERT IRT
Ham radio operator	When channel is clear	This is (ham operator call-sign) give updated status from information provided by the IRT.
Oceanside CERT Net Control	Respond back	Restate back the updated traffic provided
Ham radio operator	When channel is clear	Confirming traffic is correct
Ham radio operator	Listen for updates	Monitor the frequency for communications between Net Control and other ham operators to relay status to IRT of other Oceanside communities.
